Ceud Mile Faile  
(One hundred thousand welcomes)

"The Caviest Cave in the USA"™

# "Ohio's Greatest Natural Underground Adventure"

The fascinating walking tour through this unique cavern leads you through seven rooms or levels. The largest room is 250 feet in length. 110 feet below the surface, visitors will view "Ole Mist'ry River," the crystal clear flowing stream, which is part of the vast groundwater system which underlies the surrounding region. Seasonal precipitation determines the level of Ole Mist'ry River (water table) and the depth to which the cave tour is conducted.

Preserved close to its original natural state, **Seneca Caverns** is a unique and educational adventure which you will always remember.

## Former Ohio Governor James A. Rhodes:

*"...a splendid attraction that should be seen by all Americans and especially Ohioans."*

## Hollowrock Gifts - An Eclectic Shoppe

The gift shop features the unusual as well as the usual from around the corner to around the world.

Seneca Caverns Visitor Center, Peter Jones

## Explore Seneca Caverns

The cavern is electrically lighted and an expert guide conducts the one-hour tour. A light jacket is recommended, as the temperature is a constant 54° F/12.2° C. Walking shoes are suggested. Tour is not wheelchair or stroller accessible. Carrying children is not recommended. Backpacks are not permitted.

Group Rates only by advance reservation.

Available for your use, at no additional charge, is a clean shaded picnic area.

This tribute is written in memory of **Richard C. "Dick" Bell**, owner of Seneca Caverns. Professionally Richard was a consulting Geologist/Geophysicist. He began as cave guide in the family business at age 5. Also known as "Caveman," Richard's

life's passion was the preservation of this natural underground wonder. His devoted mentorship and enthusiasm in educating others, especially children and geology students, will endure through all he taught.
